

Milos

SC-13300~SC-13311

Our Milos fixtures look just right in castles and old cathedrals with stone walls and marble floors. We make them one at a time the same way the village blacksmith would have done it a hundred years ago. They are available in true wrought iron, but normally (as in the photo) we make them from non-ferrous metals, brass and aluminum. We twist and curl the metal bar stock to get the look right, then we hammer a tongue into the linear body for a complete look. Milos is available in all our standard finishes and with diffusers made from alabaster acrylics and glass.
