

Zagreb

PD-13500~PD-13521

Our Zagreb lights are elongated acrylic cones with square staves joining end to end and round rods penetrating the staves with rolled descending ring formations. Zagreb fixtures feature a very dramatic spun ring at top providing the basis for the upper framework and a much smaller ring at bottom for the final edge. These fixtures are actually a seamless blend of the classical with their traditional top ring, and of the modern with their semi-art deco straight and curved edges. Light throw is actually enhanced by the cone angle and we do offer a downlight option just in case side illumination is not enough to do the job.
