Randers

SC-14500~SC-14511

Our Randers fixtures are a wide variety of shapes and sizes and styles featuring an underlying motif of square bar accents in everything. Randers lights are solid glass fixtures meant for finer offices and conference centers. Their simplicity makes a powerful statement of architectural intent. It also blends well with today's lean buildings. The lights themselves are always made from non-ferrous metals as a framework around solid glass panels and cylinders. You can order Randers as a solid chrome or polished brass frame. Glass can be white or etched clear as desired.
