

**Wythe**

**103-ST~115-ST**

Our Wythe lanterns and sconces are just straight forward church fixtures. They embody a simplicity and clarity of design that you would normally only see in early colonial lights. The fixtures are hexagonal lanterns with a finely embossed decorative banding top and bottom. The crown is actually hand rolled and then capped with an acanthus leaf top band. We build these fixtures the old fashioned way with solid brass tinner's rivets and copper glass clips. And we offer terrific finish, diffuser, and lamping options. With our high powered LED and CFL lampings, you can look old, but work brand new.
