

Middleton

10141-CHT~10172-CHT

Our Middleton fixtures are just completely ornate gothic church lanterns and sconces. They feature thick, richly detailed metal castings that are right out of the best of historic European cathedral stone work. The result is an astonishing work of art. Fixtures such as these are few and far between and feature many choices of metal types and finishes, as well as an array of glass or acrylic diffuser lenses. The lights may be ordered in solid brass and then polished or antiqued, or solid aluminum and then satin finished, etc. Please consider our LED options. Long life clusters will be good friends.
